Features

- ✚ Can connect any light bulb upto 500W
- ✚ Automatically switches light on or off based on motion / ambient light
- ✚ Made in India

Best Suited for

- ✚ Corridor / Compound lights in
 - Houses,
 - Apartments
 - Street Lights
 - Hotels & Lodges
 - Industries / Factories
 - Malls
 - Advertisement / Sign Boards

Advantage CreLight

- ✚ Reduces or eliminates dependency on occupants or employees to switch lights off; Crevavi CreLight performs that automatically with timers, sensors or programming logic
- ✚ Reduces the number of hours per year that the lights are on
- ✚ Reduces power bill, saves money
- ✚ Crevavi CreLight can be used in lighting system design projects to implement an energy-efficient lighting system
- ✚ Increases life of bulbs due to reduced run-time which reduces time spent on maintenance and thus reduces overall
Crevavi CreLight increases offers flexibility in fixing and usage of the light switch in faraway / remote location
